9:30 - 9:45 Welcome Address Crganizing Committee & director KIS 9:45 - 10:15 Opening Keynote: "Soil carbon sequestration for climate change adaptation and mitigation" Session 1 - Results of the project "Carbon for Soil Quality" Session thair: Maria Grazia Tommasini 10:15 - 10:30 Introduction to Carbon 4 Soil Quality 10:30 - 10:45 Better understanding of carbon farming benefits for quality of soil and CO2 reduction Carbon farming techniques: a key for maintaining soil organic carbon 11:00 - 11:15 Establishing the basis for implementing Carbon farming in the Mediterranean 11:30 Transferrable carbon farming training materials 11:30 Transferrable carbon farming training materials 11:30 Transferrable carbon farming training materials 12:00 - 12:15 Mechanisms and rates of C sequestration associated with cover cropping practices 12:15 - 12:30 Regenera.ca, a network of regenerative farms in Catalonia: results of their comparison with conventional farms 12:30 - 12:45 CARBON FARMING - TWO YEARS OF EXPERIENCE: Trials, results of their comparison with conventional farms 12:45 - 13:00 Uptake by farmers of carbon sequestration practices in Creece. Case studies, challenges, and pathways 13:00 - 13:15 Regenerative Agriculture - The only solution on croplands and grasslands 13:45 - 14:00 Open questions 14:00 - 16:15 Overview of the CARBONICA project: Case study of Cyprus pilot sites 15:30 - 15:45 Overview of the CARBONICA Excellence Hub The CFMED platform for quantifying potential carbon removals (under development). Empowering Mediterranean Carbon Farming Through Digital Innovation and Predictive Carlos Alberto Torres Carbon Farming Through Digital Innovation and Predictive Carlos Alberto Torres Carbon Farming Through Digital Innovation and Predictive Carlos Alberto Torres Carbon Farming Through Digital Innovation and Predictive Carlos Alberto Torres Carbon Farming Through Digital Innovation and Predictive Carlos Alberto Torres Carbon Farming Through Digital Innovation and Predictive Carlos Alberto Torres Car	9:00 – 9:30	Registration		
change adaptation and mitigation" Session 1 - Results of the project "Carbon for Soil Quality" Session 1 - Results of the project "Carbon for Soil Quality" Session 1 - Results of the project "Carbon for Soil Quality" Darko Ferčej Darko Ferčej Prancesco Morari 10:45 - 11:00 10:45 - 11:00 Carbon farming techniques: a key for maintaining soil organic carbon Carbon farming techniques: a key for maintaining soil organic carbon Carbon farming the basis for implementing Carbon farming in the Mediterranean Transferable carbon farming training materials AUTH Session 2 - Carbon Farming for Climate Action Session 4 - Carbon Farming for Climate Action Session 5 - Carbon Farming for Climate Action Session 6 - Carbon Farming for Climate Action Session 8 - Carbon Farming for Climate Action Session 8 - Carbon Farming for Climate Action Session 6 - Carbon Farming For Climate Action Than 5 - Carbon Farming For Climate Action Session 6 - Carbon Farming For Climate Action Session 6 - Carbon Far		-	Organizing Committee & director KIS	
Session chair: Maria Grazia Tommasini 10:15 - 10:30 Introduction to Carbon 4 Soil Quality Better understanding of carbon farming benefits for quality of soil and CO ₂ reduction Carbon farming techniques: a key for maintaining soil organic carbon 10:45 - 11:00 Carbon farming techniques: a key for maintaining soil organic carbon 11:00 - 11:15 Establishing the basis for implementing Carbon farming in the Mediterranean Simon Ograjšek 11:15 - 11:30 Transferrable carbon farming training materials AUTH 11:30 - 12:00 Coffee break Session 2 - Carbon Farming for Climate Action	9:45 – 10:15		Thomas Kätterer	
10:15 – 10:30 Introduction to Carbon 4 Soil Quality Better understanding of carbon farming benefits for quality of soil and CO ₂ reduction Carbon farming techniques: a key for maintaining soil organic carbon Stabilishing the basis for implementing Carbon farming in the Mediterranean Transferrable carbon farming training materials AUTH 11:30 – 12:00 Coffee break Session 2 - Carbon Farming for Climate Action Session chair: Julian Cuevas Gonzalez Miguel L. Cabrera Carbon Farming training materials Author	Session 1 – Results of the project "Carbon for Soil Quality"			
Better understanding of carbon farming benefits for quality of soil and CO2 reduction Dushko Mukaetov	Session chair: Maria Grazia Tommasini			
soil and CO₂ reduction Carbon farming techniques: a key for maintaining soil organic carbon 11:00 - 11:15 Establishing the basis for implementing Carbon farming in the Mediterranean 11:15 - 11:30 Transferrable carbon farming training materials AUTH 11:30 - 12:00 Coffee break Session 2 - Carbon Farming for Climate Action Session chair: Julian Cuevas Gonzalez 12:00 - 12:15 Mechanisms and rates of C sequestration associated with cover cropping practices Regenera.cat, a network of regenerative farms in Catalonia: results of their comparison with conventional farms 12:30 - 12:45 Regenera.cat, a network of Farming for Climate Action Session Carbon Farming for Climate Action Session Chair: Julian Cuevas Gonzalez Miguel L. Cabrera Miguel L. Cabrera Miguel L. Cabrera Javier Retana Bettina Fähnrich Sesults & biological background 12:30 - 12:45 results & biological background Uptake by farmers of carbon sequestration practices in Greece. Case studies, challenges, and pathways Integrating carbon farming practices in the Mediterranean region through CARBONICA project: Case study of Cyprus pilot sites 13:00 - 13:15 13:30 Soil organic carbon stocks in European topsoils Regenerative Agriculture - The only solution on croplands and grasslands 13:45 - 14:00 Open questions 14:00 - 15:30 Lunch Session chair: Simon Ograjšek 15:30 - 15:45 Overview of the CARBONICA Excellence Hub The CFMED platform for quantifying potential carbon removals (under development). Empowering Mediterranean Carbon Farming Through Digital Innovation and Predictive Tools The CFMED platform for quantifying potential carbon Pramovals (under development). Empowering Mediterranean Carbon Farming Through Digital Innovation and Predictive Tools 16:30 - 16:45 Regenerative Agriculture for the Mediterranean Carbon Daphne Kitsou (online) Farming as if life depended on it: examples from Iberia of Regenerative Agriculture for the Mediterranean Ana Digon	10:15 - 10:30		Darko Ferčej	
11:00 – 11:15 11:30 – 12:00 11:35 – 11:30 11:35 – 11:30 11:35 – 12:00 11:30 – 13:00 11:30 – 13:15 11:30 – 13:15 11:30 – 13:15 11:30 – 13:45 11:30	10:30 – 10:45	soil and CO₂ reduction	Francesco Morari	
the Mediterranean 11:15 - 11:30 17:ansferrable carbon farming training materials 11:30 - 12:00 Coffee break Session 2 - Carbon Farming for Climate Action Session chair: Julian Cuevas Gonzalez 12:00 - 12:15 Mechanisms and rates of C sequestration associated with cover cropping practices Regenera.cat, a network of regenerative farms in Catalonia: results of their comparison with conventional farms 12:30 - 12:45 CARBON FARMING - TWO YEARS OF EXPERIENCE: Trials, results & biological background 12:45 - 13:00 Uptake by farmers of carbon sequestration practices in Greece. Case studies, challenges, and pathways Integrating carbon farming practices in the Mediterranean region through CARBONICA project: Case study of Cyprus pilot sites 13:15 - 13:30 Soil organic carbon stocks in European topsoils Panos Panagos (online) 13:30 - 13:45 Regenerative Agriculture - The only solution on croplands and grasslands 14:00 - 15:30 Lunch Session 1 - Policy and Carbon Markets Session 1 - Policy and Carbon Markets Session Chair: Simon Ograjšek 15:45 - 16:00 The CPMED platform for quantifying potential carbon removals (under development).
